Write-up about the Event (Max. 150 Words): Dr Shivani Verma in a composed yet emphatically discussed the most talked term FEMINISM. Her real talk what on to me, feminism means working towards achieving global gender equality. Everyone is born equal, regardless of gender, race, or sexuality. However, there are so many aspects of life in which people are not treated equally: politically, economically, legally, and socially.

“Feminism is about working against the systems built to keep certain groups of people oppressed, and striving towards equality for everyone. It means fighting for intersectionality and acknowledging how race, sexual orientation and socioeconomic status affects feminism. It means having civil conversations with people I fundamentally disagree with to try and advocate change. It means taking a meaningful stance on injustices and standing up for inequalities, even if I'm the only one standing.”
