Write-up about the Event:

The "Apiculture" cultivation and production were maintaining under the Entrepreneurship development Cell (EDC) and Department of Biotechnology, Nehru Arts and Science College (Autonomous), Coimbatore. The sugar syrup as a feed to the honey bee. It is used to supplement a shortage of stored honey to prevent starvation of the colony, or to stimulate a colony to artificially promote breeding. Three M.Sc students are involved and provided the sugar syrup (feed) to the 5 honey bee hive at NASC garden on 15th November 2022. We special thanks to the Entrepreneurship development Cell (EDC).

Outcome of the Activity :

Students got awareness and knowledge about Apiculture feed supplements and maintenance.

Write-up about the Event:

I M.Sc. Biotechnology students and two faculties (Dr. P. Senthilkumar and Dr. R Selva Kesavan) from Nehru Arts and Science College, Coimbatore have visited Institute of Forest Genetics and Tree Breeding (IFGTB) Coimbatore on 7.03.2023. Plant tissue culture is an important technique using all types of plant materials for the conservation and mass cultivation. They are culturing a wide variety of tissue culture plants for the farmers. Also, they follow tree breeding methods and genetic transformation methods for the cultivation of tree plants. Finally, the students visited Gass museum.

Outcome of the Event:

The students got institutional experience in handling the tissue culture and genetic transformation methods.

Write-up about the Event:

The School of Commerce organized a training workshop on the usage of the Statistical Package for Social Sciences (SPSS) software on August 27, 2022, conducted by the Department of Commerce at Nehru Arts and Science College, Coimbatore. Dr. R. Velmurugan, Associate Professor at Karpagam College, Coimbatore, served as the resource person for the one-day workshop. The objective was to provide intensive training on the everyday use of SPSS software for data analysis. The need for this workshop arose after the successful procurement of the licensed software by the Library and Information Centre. The workshop directly benefited researchers engaged in empirical research, final-year students working on their dissertations, students studying econometrics and statistics, and those involved in internally or externally funded projects, along with numerous faculty members and staff of the university.

Out Come of the Event:

The workshop received an overwhelming response in terms of student and faculty participation.

Write-up about the Event (Max.100 Words- 5 lines):

Artificial intelligence (AI) broadly refers to any human-like behaviour displayed by a machine or system. In AI's most basic form, computers are programmed to "mimic" human behaviour using extensive data from past examples of similar behaviour. This can range from recognizing differences between a cat and a bird to performing complex activities in a manufacturing facility.

Outcome of the Event (3 lines):

Students and staff gained knowledge on Artificial intelligence (AI) is intelligence demonstrated by machines, as opposed to the natural intelligence displayed by animals and humans. AI research has been defined as the field of study of intelligent agents, which refers to any system that perceives its environment and takes actions that maximize its chance of achieving its goals.

Write-up about the Event (Max.100 Words- 5 lines):

Gender equity is the process of being fair to women and men. To ensure fairness, strategies and measures must often be available to compensate for women's historical and social disadvantages that prevent women and men from otherwise operating on a level playing field. Equity leads to equality.

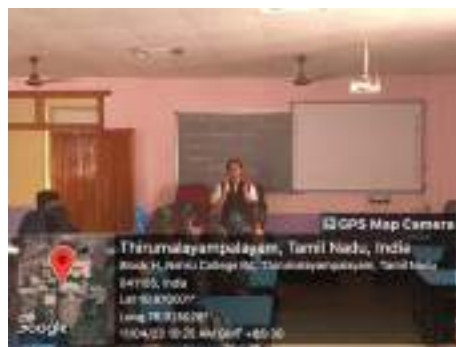

Outcome of the Event:

Students gained knowledge on gender equity, POSCO law, health, nutrition, education, child protection, social policy and how to increase and improve girl's and women's safe mobility
