**Event Description** :

The Department of Costume Design and Fashion and Institution's Innovation Council (IIC) organized a Seminar on "Lean Startup and Minimum Viable Product" for I B.Sc. and II B.Sc CDF on 10.06.2022.

Dr. S.Menaka, HoD-MCA, Nehru Institute of Information Technology and Management, deliberated on minimum viable product she added that it is a concept from Lean Startup that stresses the impact of learning in new product development. She elaborated on an MVP as that version of a new product which allows a team to collect the maximum amount of validated learning about customers with the least effort. Dr. S. Jayapriya, HoD gave the welcome Address. Ms. C. Anisha, Assistant Professor delivered Vote of Thanks.

**Outcome of the Event** :

The lecture gave a focus on encouraging MVPs as a means that developers potentially avoid lengthy and unnecessary work.

**Write-up about the Event:**

School of Computational Sciences, Department of Mathematics organized a Guest Lecture titled “Skill Development on MATLAB” on 22<sup>nd</sup> August 2022. The session was handled by Dr. D. SuryaPrabha, the resource person. During the session she explained the importance of Matlab in various fields like Mathematics – in which solving higher order Differential Equation and to draw the Graphs for solution, Matrix formation; Computer Science – in which Image Processing, Signal Processing and Machine Learning etc.. She demonstrated the applications of Matlab in Image processing with examples. Also, she has explained how to install Matlab in our PC and the associated apps to be installed. Totally 56 students and 5 faculty members participated and benefited through this event.

**Out Come of the Event:**

Students got insight into the importance of Matlab and its applications in various fields, particularly in Research areas.

### Write-up about the Event:

The School of Commerce organized a training workshop on the usage of the Statistical Package for Social Sciences (SPSS) software on August 27, 2022, conducted by the Department of Commerce at Nehru Arts and Science College, Coimbatore. Dr. R. Velmurugan, Associate Professor at Karpagam College, Coimbatore, served as the resource person for the one-day workshop. The objective was to provide intensive training on the everyday use of SPSS software for data analysis. The need for this workshop arose after the successful procurement of the licensed software by the Library and Information Centre. The workshop directly benefited researchers engaged in empirical research, final-year students working on their dissertations, students studying econometrics and statistics, and those involved in internally or externally funded projects, along with numerous faculty members and staff of the university.

### Out Come of the Event:

The workshop received an overwhelming response in terms of student and faculty participation.

### Write-up about the Event:

The resource Person **Mr. M. Maharaj** started the session by explaining what is Blockchain Technology, Evolution of Blockchain, Architecture and different types of blockchain and how blockchain is connected with other technologies such as IoT, Cyber Security and AI. He also discussed about future of blockchain in various IT industries with real time applications. He elaborated on concept of Hyper Ledger fabric to fight spam calls in India.

### Out Come of the Event:

The seminar on role of Blockchain in Industry gives listeners a basic knowledge about blockchain evolution, architecture and career opportunities in IT industry. The overall session was very informative and interactive.

### Write-up about the Event:

The session began with an introduction to Computer Networks, Components of Networks and Cloud Networking. Cloud Networking, which allows developers to connect many devices across a huge geographical area using cloud-based wireless networking systems hosted by third-party service providers. Also he demonstrated the working of OSI Reference Model with examples. Non-Teaching Staff, are actively participated in the session and interacted with the resource person. The session ends with presenting vote of thanks to all participants.

### Outcome of the Event:

The session gives a concise knowledge of Cloud-based wireless networking systems. Participants understood about the network link devices such as Ethernet (Local Area Network), WLAN (Wi-Fi), or WAN (Wide Area Network). It helps to get more ideas about **Internet Protocols, OSI Reference Models, and Firewall Systems**. The overall session was very informative and interactive.

**Write-up about the Event:**

School of Computational Sciences, Department of Mathematics organized a Skill Development Program on Skill Oriented Training for Latex on 02.11.2022. The session was handled by Dr. D. Manjula the resource person. During the session, she gave the orientation on latex and how to write the coding for, mathematical equations. She also explained the usage of Latex in preparing standard documents like articles, theses, and many other projects. Students have enjoyed the session.

**Outcome of the Event:**

Students got ideas about coding for mathematical equations using Latex.

### Write-up about the Event:

School of Life Sciences, Department of Biotechnology., Nehru Arts and Science College, Coimbatore organized Hands-on Training at PG Lab in "Plant Tissue Culture Techniques" on 28<sup>th</sup> November 2022. Dr. S. Vijayakumar, Director, VJ Biotech, Coimbatore gave a presentation on the different techniques that are involved in *in-vitro* culture of plants. The students were enlightened on the history and scope of Plant tissue culture. It is a method of plant breeding developed around the 1950s that could fulfil the required demand of crops. It makes use of parts of a plant to generate multiple copies of the plant in a very short duration. The technique exploits the property of totipotency of plant cell. The method offers an advantage over other methods as it can be used to develop disease free plants from disease-ridden plants by using their meristems (apical and axillary) as explants.

## Outcome of the Event :

The workshop helped the students to gain on various technical aspects of plant tissue culture. A suitable explant was selected and prepared for culture, and later incubated on an appropriate nutrient medium for growth and differentiation. The basic laboratory setup, handling of explants, nutrient medium and establishing the culture, and incubation of cultures was also elaborated and demonstrated in this study. It is a valuable tool for research on morphogenesis, cell signalling, physiology, and molecular biology, as well as crop improvement by biotechnology. The students understood the implications of plant tissue culture technology for the production of commercially important plants including food plants like tomato, banana, apple etc.

#### Write-up about the Event :

School of Computational Sciences, Department of Computer Applications celebrated the Computer Security Day on 30.11.2022. This day is celebrated to create awareness of computer security issues and uplift people to secure the personal information stored on the computers. The drawings and the posters were displayed in the classroom, quiz was conducted by the ways to share how to keep a secured password and how to protect ourselves from WIFI usage.

#### Outcome of the Event:

The students of our department got an idea on how to keep the data secured in the internet world. The session was entertaining, interactive and informative to the students.

**Write-up about the Event:**

The resource person Ms. Asha Ramesh, Software Developer, UST GLOBAL, Trivandrum handled the session and covered the overview of Cyber Security, emphasizing its critical role in safeguarding sensitive information in the digital age. The exponential growth of technology has increased the importance of robust security measures.

She also discussed various cyber threats such as malware, phishing, ransom ware, and advanced persistent threats (APTs). Real-world examples and case studies illustrated the severity and diversity of cyber attacks.

**Outcome of the Event:**

The students benefitted and understood the methodology and the challenges involved in Cyber Security. The insights shared by Ms. Asha Ramesh underscored the importance of a holistic and adaptive approach to Cyber Security in the face of evolving threats. The overall session was very informative and interactive.

### Write-up about the Event :

School of Computational Sciences, Department of Computer Applications organized "Adjunct Professor Lecture of Advanced Python Programming for Machine Learning". The resource person was Mr. M. S. Vijayakumar, Software Developer, FORUS Technology, Coimbatore. Dr. K. Selvavinayaki, Dean, School of Computational Sciences welcomed the gathering and presided over the function. He started the session by explaining the importance of Python Programming in industry sector and he described the job opportunities available in different fields. He detailed the different machine learning algorithms like supervised, unsupervised and reinforcement. He also discussed the different environments available for executing Python programming IDEs like Python, Anaconda, Pyspark and Colab was introduced to the students for working with Python easily. He also explained how to work machine learning in python.

### Outcome of the Event:

The students were actively participated and got an idea on the application of machine learning using python software.

**Write-up about the Event:**

School of Computational Sciences, Department of Mathematics organised a Guest Lecture titled “Skill Development on Android Operating Systems” on 21<sup>st</sup> February 2023. The session was handled by Dr. B. Karthikeyan, the resource person. During the session he explained the importance of Android Operating Systems like Origin, Features, Architecture, Versions, Software Development, Limitations etc., He demonstrated the Operating System with suitable examples. Also, He has explained application of life cycle and future of Android. 53 students and 3 faculty members participated and benefited through this Event.

**Out Come of the Event:**

Students got insight into the importance of “ANDRIOD OPERATING SYSTEMS” and its applications.

### Write-up about the Event (Max.100 Words- 5 lines):

Cybercrime exploits computers to commit crimes may involve using computers or networks to spread malware, illegal information or illegal images. Cybercriminals are often doing both at once. They may target computers with viruses then use them to spread malware to other machines or throughout a network. MrArun, Inspector of Police, Cyber cell Coimbatore City, Coimbatore gave his valuable experience in handling various cyber crimes and cyber security measures.

### Outcome of the Event:

Students gained knowledge on basics of cyber crime, cyber security, importance of security aspects in mobile phone and awareness on cyber security, ethics and protocols followed in their daily life and finally he told about the Indian government security app **MKavach 2** to identify the hidden rights.

### Event Description:

The Department of Criminology has conducted a Guest Lecture on 'Justice and Security in Critical Criminology' to our students on 07/04/2023. The main purpose of this event was to provide the students an idea about the prime motive, cause and commission of a crime by the offenders and how justice and security is served in critical criminology.

### Outcome of the Event:

The participants of the event immersed themselves in a comprehensive exploration of critical criminology, delving into its fundamental principles and theoretical frameworks. The event provided a platform to discuss and propose reform strategies that address systemic issues within the justice and security systems.
